Perspective -

~~~~~

WOW - Possibility is exploding all around us these days!! We really are using the very best of who we are as human beings to create the world we know is possible in our dreams.

If you are only tuned into mainstream sources of media and information, you probably don't know this is happening - but it IS!

And in each moment that YOU make a choice that creates the world you want to live in, you are part of this mass movement. When you speak with kindness, act without judgment, reduce what you use or buy responsibly - YOU are the power behind the possibility!

Here are some AMAZING examples of this mass movement:

Here are three short videos that will ROCK your world

and [www.theshiftmovie.com](http://www.theshiftmovie.com)

and [www.storyofstuff.com](http://www.storyofstuff.com)

The Awakening the Dreamer Symposium [www.awakeningthedreamer.org](http://www.awakeningthedreamer.org). Its purpose is to bring forth an environmentally sustainable, spiritually fulfilling and socially just human presence on the planet (these three are completely connected).

Joe Vitale is working on a TV show called Expect Miracles. Go to [www.expectmiraclestv.com](http://www.expectmiraclestv.com) to vote for this show becoming a reality.

AND THERE ARE MILLIONS MORE - The Bioneers [www.bioneers.org](http://www.bioneers.org) have been tracking the more than 1 million groups from all over the world that have immersed over the last decade in service of humanity and the earth.

## Footprint Activity

~~~~~

Go to www.ecologicalfootprint.org click on your footprint and take the quiz. Get at least one other person to take it too. Then get together with the other who took the quiz and discuss the implications. Then make commitments to actions you will take to remedy your impact.

For many, many years now we've been hearing that overpopulation is a big problem, but really raw numbers of people are less important than the level of impact each one has on the system. People, like me, in industrialized countries use 32 times the resources and create 32 times more waste than people in developing countries - OUCH! What an opportunity this creates for me to clean up my act, so to speak. I found out that if everyone lived like I do currently, we would need almost 3 planets to

meet the need - YIKES!

So I am using the information I received from the Awakening the Dreamer Symposuim (see above) to alter my habits - so I can stop hogging the planet and become a good global neighbor.

Quotes

~~~~~

"We wish you a sense of wonder so rich that it infuses all those around you with renewed hope and cheer" [www.gratefulness.org](http://www.gratefulness.org)

"Environmental sustainability, social justice and spiritual fulfillment are not 3 separate issues; they are inextricably linked with each other. When we work on one issue, we contribute to the solution of all three." [www.awakeningthedreamer.org](http://www.awakeningthedreamer.org)

"There is more hunger for love and appreciation in the world today, than for bread."  
Mother Theresa

"What you attend to and focus on, you become. Focusing on battles makes us embattled; focusing on love makes us more loving. We must choose wisely and be attentive to where we place our attention." [www.spiritualactivism.org](http://www.spiritualactivism.org)
